

Index of Articles appearing in Gold Technology, 1990 - 2002

This index lists the various articles and data sheets published in Gold Technology by issue number and date and divided under the main technology sectors. It should serve as a useful reference for readers wishing to find articles on particular topics.

Alloy Data Sheets

Introduction to data on gold alloys, <i>P Taimsalu</i>	No. 1	January	1990*
Standard yellow 22 carat/917 gold alloy	No. 1	January	1990*
Dark yellow 22 carat/917 gold alloy	No. 10	July	1993
Yellow-pink 21 carat/875 gold alloy	No. 19	July	1993
Pink 21 carat/875 gold alloy (4-5N)	No. 19	July	1993
Red 21 carat/875 gold alloy (5N)	No. 19	July	1993
Standard yellow 18 carat/750 gold alloy (3N)	No. 1	January	1990*
Pale yellow 18 carat/750 gold alloy (2N)	No. 10	July	1993
Pink 18 carat/750 gold alloy (4N)	No. 10	July	1993
Red 18 carat/750 gold alloy (5N)	No. 10	July	1993
Standard yellow 14 carat/585 gold alloy	No. 1	January	1990*
990' gold, gold 990/titanium 10 alloy	No. 6	May	1992

Assaying, Caratage Control and Hallmarking

Assaying and Hallmarking in London, <i>D W Evans</i>	No. 3	January	1991*
Touchstone testing of precious metals, <i>W Walchi & P Vuilleumier</i>	No. 3	January	1991*
Assaying gold in Switzerland, <i>W Walchi & P Vuilleumier</i>	No. 3	January	1991*
Modern assaying techniques for finished gold jewellery, <i>E L Daau</i>	No. 14	November	1994
Gold reference materials for analysis of jewellery alloys	No. 19	July	1996
Analysis of carat gold, <i>M Brill</i>	No. 22	July	1997
Breakthrough in laser marking for precious metals	No. 24	September	1998
Development of an XRF spectrometry analytical method for gold determination in gold jewellery alloys <i>A Marucco & W Stankiewicz</i>	No. 24	September	1998
International Hallmarking - pipedream or possibility, <i>R W E Rushforth</i>	No. 27	November	1999
The Italian assaying system and co-ordination at the European level, <i>A Roverato</i>	No. 27	November	1999
Hallmarking introduced in India, <i>C W Corti</i>	No. 29	Summer	2000
Assaying of gold jewellery - choice of techniques <i>C W Corti</i>	No. 32	Summer	2001
BV Schmuck & Uhren (Germany) calls for harmonisation for products made of precious metals	No. 32	Summer	2001

Basic Metallurgy for Goldsmiths

Why you should know something about metallurgy, <i>M F Grimwade</i>	No. 2	June	1990*
Melting, alloying and casting, <i>M F Grimwade</i>	No. 2	June	1990*
Solidification of metals, <i>M F Grimwade</i>	No. 2	June	1990*
Working and annealing, <i>M F Grimwade</i>	No. 2	June	1990*
The metallurgical principles of solidification and casting, <i>M F Grimwade</i>	No. 11	November	1993
Alloying in a small workshop, <i>AP Eccles</i>	No. 22	July	1997
Metallography of gold and gold alloys, <i>D Ott & U Schindler</i>	No. 33	Winter	2001
<i>See also Metallurgy and properties of gold alloys</i>			

CAD/CAM/Rapid Prototyping

Rapid prototyping: application to gold jewellery production <i>L C Molinari, M C Meggazini & A Ungarelli</i>	No. 20	November 1996	1996
The role of CAD/CAM in the modern jewellery business <i>L C Molinari & M C Meggazini</i>	No. 23	April 1998	1998
CAD/CAM technologies: transforming the goldsmiths workshop, <i>M G Malagoli</i>	No. 34	Spring 2001	2001

Chain Manufacture

Evaluation of strength and quality of chains, <i>G Raykhtsaum & D P Agarwal</i>	No. 24	September 1998	1998
---	--------	----------------	------

Corrosion and Tarnishing

Environmental effects on gold alloys and their resistance to tarnishing and corrosion, <i>M F Grimwade</i>	No. 9	May 1993	1993
---	-------	----------	------

Defects in Jewellery Production

Melting, alloying and casting, <i>M F Grimwade</i>	No. 2	June	1990*
Casting - porosity causes & prevention, <i>D Ott, C J Rau, W Rapson</i>	No. 7	July	1992
Residual stresses: their causes and how they can be minimised, <i>M F Grimwade</i>	No. 8	November	1992
Porosity in investment casting, <i>D Ott</i>	No. 11	November	1993
Wax elimination, burnout & the mould's effect on porosity in castings, <i>E Bell</i>	No. 11	November	1993
Analysis of some common casting defects, <i>D Ott</i>	No. 13	July	1994
Shrinkage porosity in investment casting: factors affecting its formation, <i>D Ott</i>	No. 13	July	1994

Control of defects in casting, <i>D Ott</i>	No. 17	October	1995
"But I've always done it this way" Technical support - it makes a difference, <i>S Grice</i>	No. 25	April	1999
Know the disease before trying the cure. Quality castings: identify the defects, <i>E Bell</i>	No. 31	Spring	2001

Electroplating & Electroforming

Electroforming of carat gold alloys, <i>G Desthomas</i>	No. 4	May	1991
Electroforming in gold jewellery production, <i>F Simon</i>	No. 4	May	1991
Electroforming - a method for the future?, <i>M Sole</i>	No. 11	November	1993
Surface Hardening of 24 carat gold jewellery - early results, <i>A Zielonka</i>	No. 14	November	1994
Electroforming of gold alloys - the ARTFORM process, <i>G Desthomas</i>	No. 16	July	1995
Improved wear resistance with electroplated gold containing diamond dispersions <i>A Zielonka</i>	No. 16	July	1995
Recent developments in the field of electroforming, a production process for Hallmarkable hollow jewellery, <i>F Simon</i>	No. 16	July	1995
Electroforming for innovative design, <i>S Muller & B Biagi</i>	No. 27	November	1999
<i>Electroplated gold - see also under Health, Safety & Environmental Control</i>			

Finishing and Polishing

Finishing the cast product, <i>V Faccenda</i>	No. 17	October	1995
Bulk finishing of gold jewellery - 1 Wet tumbling: basic principles, <i>M Dreher & P Taimsalu</i>	No. 26	July	1999*
Polishing: the basic principles, <i>V Faccenda & C W Corti</i>	No. 26	July	1999
Getting gold to glitter or All that glitter is gold - the mass finishing of jewellery, <i>S Alviti</i>	No. 26	July	1999
The surface enrichment of carat gold alloys - Depletion gilding, <i>M F Grimwade</i>	No. 26	July	1999
Polishing up on finishing: finishing jewellery by machine, <i>M Moser</i>	No. 31	Spring	2001

Health, Safety and Environmental Control

Health, safety and environmental pollution in gold jewellery manufacture, <i>M Grimwade</i>	No. 18	April 1996	1996
Nickel allergy: The European directive and its consequences on gold coating and white gold alloys, <i>P Bagnoud, S Nicoud & P Ramoni</i>	No. 18	April	1996
Recent changes in Environmental regulations - a perspective from the USA, <i>E W Salomon</i>	No. 20	November	1996
Don't let nickel get under your skin - the European experience, <i>R W E Rushforth</i>	No. 28	Spring	2000
The European Directive on nickel in jewellery: update, <i>C W Corti</i>	No. 29	Summer	2000

Nickel release tests: how well do they work?, *G Raykhtsaum & D P Agarwal* No. 32 Summer 2001

Investment Casting / Lost Wax Casting

Casting - introduction & problem areas, *D Ott & C J Raub* No. 7 July 1992
Casting - gas pressure effects, *D Ott & C J Raub* No. 7 July 1992
Casting - surface properties, *D Ott & C J Raub* No. 7 July 1992
Recent developments in casting techniques, *A M Schaler* No. 11 November 1993
Modern commercial workshop practice in gold jewellery investment casting, *C Walton* No. 11 November 1993
Advances in investment casting machine technology, *V Faccenda* No. 20 November 1996
Advances in investment casting materials, *C J Cart* No. 23 April 1998
Investment casting: centrifugal or static vacuum assist?, *V Faccenda* No. 23 April 1998
Logic, technology and quality: life as a trade caster, *C J Cart* No. 27 November 1999
Investment powders and investment casting, *P J Horton* No. 28 Spring 2000
Back to basics: Investment casting - Part 1, *C W Corti* No. 28 Spring 2000
Advances in investment and burnout furnace design, *G M Ingo & V Faccenda* No. 31 Spring 2001
Effects of water quality and temperature on investment powders, *R Carter* No. 32 Summer 2001
Getting optimum performance from your investment powder, *R Carter* No. 34 Spring 2002

Metallurgy and Properties of Gold Alloys

The metallurgy of the carat gold alloys, *W S Rapson* No. 4 May 1991
Getting increase strength in carat gold jewellery, *M F Grimwade* No. 14 November 1994
The optimisation of silicon alloying additions in carat gold casting alloys,
G Normandeau & R Roeterink No. 15 April 1995
Metallurgical aspects of chain manufacture, *D P Agarwal* No. 17 October 1995
The color of gold, *G Raykhtsaum & D P Agarwal* No. 22 July 1997
The effects of small additions and impurities on properties of carat golds, *D Ott* No. 22 July 1997
Effects of cobalt additions on the properties of 5N red (18 carat) gold alloys,
F Arbini, A Ricci & M Rosso No. 25 April 1999
Production & characterisation of 18 carat white gold alloys conforming to
European Directive 94/27 CE, *M Dabala, M Magrini, M Polier, R Galvani* No. 25 April 1999
White golds - meeting the demands of international legislation, *P Rotheram* No. 27 November 1999
Effects of silicon content vs quench temperature on low carat gold casting alloys
S Grice No. 28 Spring 2000
A plain man's guide to phase diagrams: part 1, *M F Grimwade* No. 29 Summer 2000
A plain man's guide to phase diagrams: part 2, *M F Grimwade* No. 30 Winter 2000
The effect of silicon deoxidation and grain refinement on the production

performance of a 14 carat yellow casting gold, <i>J C McCloskey, P R Welch, S Aithal</i>	No. 30	Winter	2000
Coloured gold alloys, <i>C Cretu & E van der Lingen</i>	No. 30	Winter	2000
White golds for investment casting, <i>M Poliero</i>	No. 31	Spring	2001
Coloured gold alloys for investmetn casting, <i>D Zito</i>	No. 31	Spring	2001
Optimising carat gold alloys for the manufacturing process, <i>D Ott</i>	No. 34	Spring	2002

Miscellaneous

Technology needs in the Developing Markets, <i>M F Grimwade</i>	No. 17	October	1995
Aspects of technology implementation, <i>AM Schaler</i>	No. 17	October	1995

New Gold Alloys and Materials

The strengthening of 990 gold, <i>G Humpston & D M Jacobson</i>	No. 6	May	1992
The production of 990 gold by investment casting 990 gold, an unsung alloy, <i>F Keller-Bauer</i>	No. 6	May	1992
Gold casting alloy, 14 & 18 carat, <i>D Ott & C J Raub</i>	No. 7	July	1992
Spangold - a new jewellery alloy with an innovative surface finish, <i>I M Wolff & V R Pretorius</i>	No. 12	April	1994
Spangold - a jewellery alloy with an innovative surface finish, <i>M Cortie, I Wolff,</i> <i>F Levey, S Taylor, R Watt, R Pretorius, T Biggs & J Hurly</i>	No. 14	November	1994
In search of a new gold (14 carat), <i>D P Agarwal, G Raykhtsaum & M Markic</i>	No. 15	April	1995
The development of High Strength Pure Gold, <i>A Nisho</i>	No. 19	July	1996
Design opportunities through innovative materials, <i>S Takahashi, N Uchiyama &</i> <i>A Nisho</i>	No. 23	April	1998
Hard 22 carat gold alloy, <i>C Cretu, E van der Lingen & L Glaner</i>	No. 29	Summer	2000
Jewellery manufacturing with the new high carat golds, (about PureGold, 24 carat hardened gold), <i>J E Bernadin</i>	No. 30	Winter	2000
Strong 24 carat golds: The metallurgy of microalloying, <i>C W Corti</i>	No. 33	Winter	2001

Process Control

Temperature measurement, <i>M F Grimwade</i>	No. 5	November	1991
Use of computers in gold jewellery casting, <i>A M Schaler</i>	No. 14	November	1994

Quality Systems

Quality and the manufacturing jeweller, <i>P Raw</i>	No. 22	July	1997
Quality assurance: is ISO 9000 the right answer, <i>V Faccenda & E Gitai</i>	No. 27	November	1999

Application of lean manufacturing in jewellery manufacture, *J McCloskey & H Hermes*
See also under Recovery, Recycling & Refining No. 34 Spring 2002

Recycling, Recovery and Refining of Scraps and Wastes

Gold refining for the jewellery producer, *W S Rapson* No. 14 November 1994
Cost-effective pyrometallurgical routes for recycling of jewellery scraps, *A Gibbon* No. 20 November 1996
Recovery and recycling in gold electroplating, *M Pan & J Thibault* No. 21 April 1997
Recovery and recycling in gold jewellery production, *C W Corti* No. 21 April 1997
The recovery of precious metals from used casting investment, *D Schneller* No. 21 April 1997
In-house gold refining: the options, *C W Corti* No. 21 April 1997
Small medium scale refining in quartation and parting, *P Raw* No. 25 April 1999
Gold losses and control in gold jewellery manufacture, *P Raw* No. 29 Summer 2000

Santa Fe Symposia Reports

Fifth Santa Fe Symposium report, *M F Grimwade* No. 5 November 1991
Sixth Santa Fe Symposium report, *M F Grimwade* No. 8 November 1992
Seventh Santa Fe Symposium report, *M F Grimwade* No. 12 April 1994
Eighth Santa Fe Symposium report, *M F Grimwade* No. 15 April 1995
Ninth Santa Fe Symposium report, *M F Grimwade* No. 18 April 1996
Tenth Santa Fe Symposium report, *M F Grimwade* No. 21 April 1997
Eleventh Santa Fe Symposium report, *M F Grimwade* No. 23 April 1998
Twelfth Santa Fe Symposium report, *M F Grimwade* No. 25 April 1999
Thirteenth Santa Fe Symposium report, *M F Grimwade* No. 26 July 1999
Fourteenth Santa Fe Symposium report, *M F Grimwade* No. 30 Winter 2000
Fifteenth Santa Fe Symposium report, *M F Grimwade* No. 33 Winter 2001

Soldering and Joining

New low temperature process for joining high caratage jewellery alloys,
G Humpston, D M Jacobson & S P Sangha No. 9 May 1993
Gold solder pastes, *H H Hilderbrand* No. 9 May 1993
The application of diffusion soldering to carat gold jewellery fabrication,
G Humpston, D M Jacobson & S P Sangha No. 12 April 1994
Joining of gold from Bombay, India to Valencia, Spain, *H H Hilderbrand* No. 14 November 1994
Overview: Joining technology in chain manufacture, *A Canaglia* No. 17 October 1995
Cadmium-free gold solder alloys, *G Normandeau* No. 18 April 1996
Development of 21 carat cadmium-free gold solders, *D Ott* No. 19 July 1996

New low temperature high carat gold solders and their applications, *P Satti, S Sangha*

M R Harrison & D M Jacobson

No. 19 July 1996

Characterisation of new yellow cadmium-free gold brazing alloys, *M Dabala,*

M Magrini & M Poliero

No. 24 September 1998

Joining gold by resistance welding, *H H Hilderbrand*

No. 24 September 1998
