NOTES

* This table was updated in January 2011 and reports data available at that time. Data are taken from the International Monetary Fund's International Financial Statistics (IFS), January 2011 edition, and other sources where applicable. IFS data are two months in arrears, so holdings are as of November 2010 for most countries, October 2010 or earlier for late reporters. The table does not list all gold holders: countries which have not reported their gold holdings to the IMF in the last six months are not included, while other countries are known to hold gold but they do not report their holdings publicly. Where the WGC knows of movements that are not reported to the IMF or misprints, changes have been made. The countries showing as having 0.0 tonnes of gold report some gold but less than 0.05 tonnes to the IMF.

**The percentage share held in gold of total foreign reserves, as calculated by the World Gold Council. The value of gold holdings is calculated using the end-November gold price of \$1383.50 per troy ounce (there are 32,151 troy ounces in a metric tonne). Data for the value of other reserves are taken from IFS, table 'Total Reserves minus Gold'.

1. BIS and IMF balance sheets do not allow this percentage to be calculated. In the case of any countries, up to date data for other reserves are not available.
2. BIS data are updated each year from the BIS's annual report to reflect the Bank's gold investment assets excluding any gold held in connection with swap operations, under which the Bank exchanges currencies for physical gold. The bank has an obligation to return the gold at the end of the contract.
3. West African Economic Monetary Union including the central bank.
4. Including gold on inward swap and excluding gold on outward swap.
5. Central African Economic and Monetary Union including the central bank.
6. Data updated using December 2010 edition of IFS.
7. Signatories to the third Central Bank Gold Agreement which commenced in September 2009. The signatories include: ECB, Austria, Belgium, Cyprus, Estonia, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, Malta, Netherlands, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland. Estonia became a signatory upon joining the Euro in January 2011.
