

Volume III

After the Gold Standard, 1931-1999

1933 May 12

Emergency Farm Mortgage Act, 1933: As the Great Depression worsened, the United States sought to insulate its economy from the effects of foreign devaluations. In this excerpt, the United States Congress gives the President the authority to expand the money supply and also devalue the gold value of the dollar by up to 50%.

SEC. 43. Whenever the President finds, upon investigation, that (1) the foreign commerce of the United States is adversely affected by reason of the depreciation in the value of the currency of any other government or governments in relation to the present standard value of gold, or (2) action under this section is necessary in order to regulate and maintain the parity of currency issues of the United States, or (3) an economic emergency requires an expansion of credit, or (4) an expansion of credit is necessary to secure by international agreement a stabilization at proper levels of the currencies of various governments, the President is authorized, in his discretion—

(a) To direct the Secretary of the Treasury to enter into agreements with the several Federal Reserve banks and with the Federal Reserve Board whereby the Federal Reserve Board will, and it is hereby authorized to, notwithstanding any provisions of law or rules and regulations to the contrary, permit such reserve banks to agree that they will, (1) conduct, pursuant to existing law, throughout specified periods, open market operations in obligations of the United States Government or corporations in which the United States is the majority stockholder, and (2) purchase directly and hold in portfolio for an agreed period or periods of time Treasury bills or other obligations of the United States Government in an aggregate sum of \$3,000,000,000 in addition to those they may then hold, unless prior to the termination of such period or periods the Secretary shall consent to their sale. No suspension of reserve requirements of the Federal Reserve banks, under the terms of section 11 (c) of the Federal Reserve Act, necessitated by reason of operations under this section, shall require the imposition of the graduated tax upon any deficiency in reserves as provided in said section 11 (c). Nor shall it require any automatic increase in the rates of interest or discount charged by any Federal Reserve bank, as otherwise specified in that section. The Federal Reserve Board, with the approval of the Secretary of the Treasury, may require the Federal Reserve banks to take such action as may be necessary, in the judgment of the Board and of the Secretary of the Treasury, to prevent undue credit expansion.

(b) If the Secretary, when directed by the President, is unable to secure the assent of the several Federal Reserve banks and the Federal Reserve Board to the agreements authorized in this section, or if operations under the above provisions prove to be inadequate to meet the purposes of this section, or if for any other reason additional measures are required in the judgment of the President to meet such purposes, then the President is authorized—

(1) To direct the Secretary of the Treasury to cause to be issued in such amount or amounts as he may from time to time order, United States notes, as provided in the Act entitled "An Act to authorize the issue of United States notes and for the redemption of funding thereof and for funding the floating debt of the United States", approved February 25, 1862, and Acts supplementary thereto and amendatory thereof, in the same size and of similar color to the Federal Reserve notes heretofore issued and in denominations of \$1, \$5, \$10, \$20, \$50, \$100, \$500, \$1,000, and \$10,000; but notes issued under this subsection shall be issued only for the purpose of meeting maturing Federal obligations to repay sums borrowed by the United States and for purchasing United States bonds and other interest-bearing obligations of the United States: *Provided*, That when any such notes are used for such purpose the bond or other obligation so acquired or taken up shall be retired and canceled. Such notes shall be issued at such times and in such amounts as the President may approve but the aggregate amount of such notes outstanding at any time shall not exceed \$3,000,000,000. There is hereby appropriated, out of any money in the Treasury not otherwise appropriated, an amount sufficient to enable the Secretary of the Treasury to retire and cancel 4 per centum annually of such outstanding notes, and the Secretary of the Treasury is hereby directed to retire and cancel annually 4 per centum of such outstanding notes. Such notes and all other coins and currencies heretofore or hereafter coined or issued by or under the authority of the United States shall be legal tender for all debts public and private.

(2) By proclamation to fix the weight of the gold dollar in grains nine tenths fine and also to fix the weight of the silver dollar in grains nine tenths fine at a definite fixed ratio in relation to the gold dollar at such amounts as he finds necessary from his investigation to stabilize domestic prices or to protect the foreign commerce against the adverse effect of depreciated foreign currencies, and to provide for the unlimited coinage of such gold and silver at the ratio so fixed, or in case the Government of the United States enters into an agreement with any government or governments under the terms of which the ratio between the value of gold and other currency issued by the United States and by any such government or governments is established, the President may fix the weight of the gold dollar in accordance with the ratio so agreed upon, and such gold dollar, the weight of which is so fixed, shall be the standard unit of value, and all forms of money issued or coined by the United States shall be maintained at a parity with this standard and it shall be the duty of the Secretary of the Treasury to maintain such parity, but in
